

European Working Group on Medical Angiology

## Application for recognition as a fellow in Medical Angiology Vascular Medicine of the International Union of Angiology

### *Information for Applicants*

The International Committee on Medical Angiology, which is the official representative of the European Working Group (EWG) on Medical Angiology in the International Union of Angiology, wishes to promote a harmonised qualification in Medical Angiology/Vascular Medicine in Europe. A number of Teaching Centers have been established in Europe (see list below) and several more are expected to be recognised in the future.

*Three different applications will be considered for fellowship*

**Application No. 1.**—(Admission to training) Application for physicians who wish to receive training in Medical Angiology/Vascular Medicine.

*Pre-conditions:* previous internship of at least two years in a Department of Internal Medicine (documented).

*Requirement:* two years of training of a Teaching Centre of the European Working Group on Medical Angiology.

**Application No. 2.**—(Admission to complete training) Application for physicians with proper training and experience limited to a few diagnostic methods and/or pathologies.

*Pre-conditions:*

— previous internship of at least two years in a Department of Internal Medicine (documented).

— previous internship in a Department/Service/Centre of Medical Angiology/Vascular Medicine (documented).

— a suitable curriculum and a list of publications (to be attached for appraisal).

*Requirement:* partial training at one of the Teaching Centres of the European Working Group on Medical Angiology, aimed at completing training.

**Application No. 3.**—(Application for Fellowship) Application for selected cases of physicians who have already proper training and experience (documented) in the field of Medical Angiology/Vascular Medicine.

*Pre-conditions:* a suitable curriculum and a list of publications (to be attached for appraisal).
